

Live and Learn at Luther

Name: **Luhyalo**
Home Country: Ghana

Why did you choose Luther?

Luther is steeped in a rich history and academic excellence. When, as a family, we were searching for a boarding school we were impressed by how Luther has consistently prepared high caliber scholars for college and the challenges of life.

What do you enjoy most about living in the Luther dorms?

The dorms at Luther College are a melting point of different world nationalities and cultures and we get to meet a vast array of people. I have enjoyed interacting with the other students from many different countries and backgrounds. This has enriched my understanding of other people and made my world very "small".

What is the best part about attending Luther College High School?

For me, the best part has been the journey of self discovery. Luther has helped me to discover new abilities and a wider world and the skills I need for life, and I am sure these will come in handy when I go university and later in my work life.

What is your favorite dorm activity?

My favourite dorm activity is making gingerbread houses during the Christmas season. I enjoy this bonding activity because it puts you in the Christmas mood and it's a chance to show your creative skills and win prizes.
