

Name: Maria

Home Country: Brazil

Why did you choose Luther?

I chose Luther College High School because of the reputation for the academics. Luther provides different languages and a lot of different clubs that students can join in order to be more involved with the Luther community.

What do you enjoy most about living in the Luther dorms?

The best thing about living in the dorms at Luther is the friendships that you make. It feels like my second home where everyone is my family. The best thing is that you know that most of the people you meet are going to be in your life for a long time not only during high school. If I get stressed about school, having my friends around me to help.

What is the best part about attending Luther College High School?

The best part is the experience of meeting people from all over the world. When I started to attend Luther, I became friends with people from places with a totally different culture from mine. This helped me to have a better understanding about different ways of thinking and different beliefs. I learned about different religions, cultures, beliefs, and languages.
