

**Name: Jolie**

**Home Country: Germany**

**Why did you choose to study at Luther College High School?**

I chose to go to Luther College High School because I had the impression that the school has a great community and a wide range of classes. The range of different sports also sounded good to me.

**What do you enjoy most about living in the dorm at Luther College and why?**

I really like the dorm community. All students treat each other with respect and are also very helpful and friendly. I have made great friends and spending time with them on the weekends is always so much fun! Sometimes we also go Downtown to have dinner together or to go shopping.

**What is the best part about attending Luther College High School and why?**

I like the people at Luther. Everyone is very friendly and helpful. Especially when you are an exchange student, the teachers and students are patient with you and always try to help you. What I also noticed is the support in the community in sports, for example, when the "Lions" are having games or competitions, they are always supported by other students or teachers.

**What is your favourite dorm activity and why is it your favourite?**

One time we went to "Happy Hollow". It was a fall event with a big corn maze, a small coffee shop and the nature there was beautiful. We took a lot of pictures there and had a lot of fun.

**Did you enjoy your experience with the Cross Country Running team? Can you tell me a bit more about the experience running outdoors in Canada? What did you like about being on the team?**

I enjoyed the experience with the Cross Country Running Team! We had the perfect weather for running. The course was along a stream and through some streets around the school. The meets were also a lot of fun. We always supported each other and the feeling after the competition was always the best!
