

MESSAGE FROM THE MAYOR

On behalf of my City Council colleagues and the City of Regina, I want to wish Luther College a Happy 50th Anniversary.

Over the past 50 years, Luther College's campus has grown from a school of "higher learning" to an institution of academic excellence in university programming. The College is a welcoming place and embraces everyone regardless of background, faith denomination, or orientation.

The institution's mission began as an idea. An ideal shared by visionaries who looked into the future and imagined an institution that could serve all people and shape our future generations. Luther College touches many lives through its high quality of teaching and fostering exceptional research for students and faculty.

I want to thank the students, faculty, staff and board members who have made the past 50 years possible. Here is to another 50 years and remember to 'think deeply, act passionately, and live faithfully.'

Sincerely,

A handwritten signature in black ink, appearing to read 'Sandra Masters'.

Sandra Masters
Mayor of Regina
